How accessible this website is

We know some parts of this website are not fully accessible:

- you cannot modify the line height or spacing of text
- the site logo is not editable by admin - though the current alt text of 'Home' should meet requirements
- some older PDF documents are not fully accessible to screen reader software
- our mailing list sign-up form does not currently cater for allowing consent via the use of keyboard
- there are instances of duplicate links where text and images send users to same piece of content

Technical information about this website's accessibility

The National Heritage Memorial Fund is committed to making its website accessible, in accordance with the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018.

Compliance status

This website is partially compliant with the [Web Content Accessibility Guidelines version 2.2](#) AA standard, due to the non-compliances listed below.

Non-accessible content

Due to certain constraints, we have had to include technologies and features that may cause accessibility issues. These include:

Non compliance with the accessibility regulations

- **Timing adjustable (2.2.1)** - the email sign-up form currently relies on browser validation fields which do not always persist for users. We hope to have native validation in place by June 2025.

Disproportionate burden

Not applicable at the present time.

Content that's not within the scope of the accessibility regulations

- The site logo utilises text in an image as an essential part of the NHMF brand and is not currently editable. It currently has an alt text of 'Home' which reflects its other function of linking to the site homepage. The W3C advises that images used as logos are exempt from some of the accessibility requirements that apply to other images of text
- Some older PDFs (that are not vital to the application process and predate 23 September 2018) are not accessible
- Social media embeds (third-party applications)
- YouTube (third-party video application), including videos generated by partners
- Grant application system (third-party database)

We are making every effort to overcome these limitations by improving their accessibility and failing that, provide accessible alternatives.

If you need alternative versions to our downloadable documents (such as plain text or Braille) or if you experience any accessibility problems with our site, please [contact us](#).

The National Heritage Memorial Fund does not assume responsibility for third party applications.

Preparation of this accessibility statement

This statement was prepared on 1 December 2020. It was last reviewed on 12 September 2024.

It was tested by conducting an internal audit on the most frequented pages utilising manual and automated techniques (which include WAVE and axe-core browser extensions), and the use of the NVDA screen reader.
