

Gil Fach Farm

Acquisition of Gil Fach Farm, a Radnorshire hill farm of 383 acres, relatively untouched by the agricultural and other changes of the 20th century, it is home to a superb range of wildlife, from the common to the incredibly rare. The farmhouse is Listed Grade II and the surrounding land is an SSSI. The area includes a variety of habitats - open moor, broadleaved woodland, rocky crags and pasture. The River Mortag is of particular importance for otters.
